## Preparing for Extraterrestrial Communication? Try a Class from Parallel Universe...

**Kirkland, Washington, May 29, 2009** – You might be prepared for global warming, but what's next? Parallel Universe announces the offering of a serious approach to human consciousness expansion, accelerating mental acumen and exploring new right brain perception by focusing on preparation for "extraterrestrial" communication: **"Star Talk: Preparing for Extraterrestrial Communication & Expanding Human Consciousness,"** Sat. July 11<sup>th</sup>, 10 am-5 pm at Maitreya Education Center, 2260 152<sup>nd</sup> Ave. NE in Redmond, WA, with more workshops elsewhere in the U.S. (425-214-2926). All are welcome – spiritual explorers, artists, writers, meditators, scientists, technologists, sci-fi/UFO buffs, teachers, parents, young adults.

**Star Talk** is not business-as-usual even for Parallel Universe, a Kirkland company which offers *Right Brain Aerobics for Business & Career: The Coming Age of the Right Brain*, advanced consciousness training, sci-fi musicals, and other publications. **What is news is that an "extraterrestrial communication" workshop is offered by a recent senior executive of Fortune 500 companies--Parallel Universe CEO, Sandra H. Rodman.** "In technology management, I was often driven by a quest for the *next big thing*. I left sensing something different emerging – *humanology*, advanced human consciousness development *beyond technology* as we know it, that could transform our current iteration of it."

**In workshop pilots** Sandra Rodman reports being "...blown away by people demonstrating new perception and *vision*, even if they had never explored right brain intuition or meditation before. We seem to have amazing, natural skills for expanded sensory awareness, telepathy, communication ability outside of normal space-time – or species. Just undeveloped!" **Star Talk workshops involve:**

- ✿ Parallel Universe mental/meditation exercises with an interplanetary focus to stretch imagination/mental acumen beyond time-sense and cultural boundaries, mental limits we place on personal development;
- ✿ Empathetic, creative-intuitive, telepathic and remote viewing/communication practices [also using sound meditation] with interplanetary focus to "spark" *an expanded sense of self, multilevel creative ability*; better handle *any situation of stress, including those in which time-space seems altered* such as "UFO" sightings.

"We may need these to be *highly developed* as evolutionary survival skills! They could affect every day life, personal relationships, more creative and empathetic business ability – beyond what we imagine now. For communication or society on or off the planet...!"

**Joining Sandra Rodman: Trinity Shea Thomas**, teacher and creator of LightSeeds: Awakening Arts Catalyzing Consciousness ([www.lightseeds.com](http://www.lightseeds.com)) and Alchemical Sound ([www.iamgoddessound.com](http://www.iamgoddessound.com)); **Sara Pelfrey**, a teacher in the Sufi tradition, co-creator of Redmond's emerging progressive community, Soul Food Books & Music ([www.soulfoodbooks.com](http://www.soulfoodbooks.com)) where advanced consciousness development exists side by side with new musical artists and organic café.

**Star Talk** is an *affirmative*, exploratory learning setting in which to think seriously about our own preparation for extraordinary communication with non-local life—based on *gratitude, empathy and respect for all life*. To go beyond old communication paradigms and “alien-ating” language, the word “alien” is not used for *any* beings-- but “extraterrestrial” or “interplanetary life.” The workshop has been called “Profound...,” “One of the most unusual courses on the planet...” Rather than reviewing UFO literature, races, fears—the agenda is practices and exercises for:

- ✿ Expanding human intelligence beyond normal consciousness and local time-space sense parameters;
- ✿ Extending energetic, intelligent, peaceful *interconnectedness* into *interstellar* communication—a *real* star trek;
- ✿ Fostering greater human comprehension in supersensory/supercreative mental states and new paradigms.

**What if we find life and don't know how to communicate?** How can we understand the *context*, the internal symbol world in *any* interplanetary communication? It *must* be at different levels of consciousness. Led by women, the workshop explores identity-construct topics to consider in “contact” with extraterrestrial life: *a shared future*, family and generational community, “male” and “female” relationships, children's education, religion, art, music, values, love and sexual mores—“Close Encounters of the Heart?” There are no “givens.”

- ✿ **How do we communicate when there are no “givens”?** How do we learn to create, to conceptualize *outside of our own “givens”*? Is this ability needed in Earth cultures today on many fronts?
- ✿ **Might Radio Telescope Arrays and SETI projects** (Search for Extraterrestrial Intelligence) have more active *results* if we add multi-state human consciousness initiatives to transformed technologies? Even if the drive of intelligent life to communicate with other intelligent life in the universe is *innate*—might the next step hinge on advancing *evolutionary development* associated with altered time-space exercise of consciousness?
- ✿ **How do we prepare** in ways that expand life progress for us and for all—more creative than competitive?
- ✿ **Is this necessary skills** development for new education and a future that is *beyond surprising*?
- ✿ **Might we learn now to better prepare our young children** for a world in which they may well face this and other non-local time-space communication challenges that we cannot even *imagine*?
- ✿ **How might other planetary life be preparing the children of their communities** to interact with *us*? How will our children respond to their children-- to new vistas and meanings of “life”?

**Star Talk 1 and Star Talk Academy begin “for real” in July— even in these times, unprecedented topics.** One day, Sat., July 11<sup>th</sup>, 10 am - 5 pm, \$125 or \$99 before July 1<sup>st</sup> at Maitreya Education Center, 2260 152<sup>nd</sup> Ave NE in Redmond. Reserve at 425-214-2926.
